## Productivity for the Whole Office

CapturePoint is a Cloud Service that enables Xerox ConnectKey devices to provide organizations with effective and secure document-scanning capabilities, to transform paper into editable, actionable information quickly and transfer the digital file to a wide-range of cloud destinations.

Using the intuitive touchscreen at any Xerox ConnectKey device, users can securely scan and convert paper to searchable pdf, Microsoft Word or Excel file, in English and 5 other languages using the CapturePoint App. This cost efficient app facilitates unlimited number of scans. For once you can forego investing on the expensive server installation or spending time and resources over desktop server installation and system maintenance. With one easy subscription, your entire office can enjoy the benefits of CapturePoint. It empowers knowledge workers to transfer information once trapped in paper, to editable digital content.

- Very, Very Secure
- Simple to Deploy
- Easy to Use
- Global Presence
- Cost Effective
- Productivity for Everyone

## Simple to Deploy

CapturePoint is a server-less deployment. There is no server to purchase, software to configure or on-going system maintenance to worry about. CapturePoint can be set up in minutes and we are here to provide support if ever needed.

## Cost Effective

You can subscribe to CapturePoint, for less than the cost of a cup of coffee a day. Allow your entire office to benefit from using this solution. There is no limitation to the number of scanned documents or to the number of people who can use the system, within your organization.

## Very, Very Secure

CapturePoint encrypts all data communications between Xerox MFPs and our Cloud platform, using SSL technology to offer complete security and peace of mind. CapturePoint is deployed inside the Microsoft Global Azure cloud platform.

## Easy to Use

The user interface is clean, simple and intuitive. Just like most smartphone apps, users will be able to use the solution without a manual or training.

## Global Presence

CapturePoint is a Global Solution that converts paper to transferable digital content on the go. It is available anywhere on the globe and can be downloaded from Xerox App Gallery with the Click of a button.
